9-3-91

Dear Mr. Weisberg,

I'm writing to inquire about your present illness, I found out just recently that you have been ill for quite some time. I am a big "fan" of yours and am very grateful for your contribution. The cities, all the cities were forwarded by your work and the headway made by you in retrieving documents from Government agencies.

I do have a request although small as it may seem is tantamount to my research into the assassination. The item I'm looking for is a Report written by FBI agents James W. Sibert and Francis X. O'Neil on November 1963. This Report was of the autopsy. These two agents were, I think, the only FBI there. Could you possibly retrieve and send me a copy of this report and also send anything else submitted by these two agents that you think will help me.

I am also interested in any report written by SSA Clinton Hill. He was the SS agent that jumped aboard the Presidents car just after the fatal shot. I am aware that he did submit a report but am unable to obtain a copy, would you, could you, - Please.

Sometime around last week maybe, I ordered a number of books from you; "Whitewash II", "Photographic Whitewash", "Whitewash IV", and "Post-Mortem".

P.S. My number is 803-943-3419, if you would like to call regarding anything of the assassination or just to chat, I am home all day usually and would love to hear from you.

Thanks for your contribution to the cause

I personally appreciate your ~~work~~ writing these materials to further investigations into various aspects of the assassination. I am a late beginner because of my obvious age (23), I was unable to "see" what happened first hand. I am trying my best to research the assassination to the satisfaction of writing a book about my findings. I have a friend in my home state that is a Othapedic Surgeon. He is friends with a person whom was present at the autopsy and has arranged for an interview. The three of us are planning on meeting in early December and I am planning on making a tape of the entire interview. I would be happy to supply you with a transcript of this interview if it proves helpful. I am very excited about this opertunity, seeings how I am so ~~late~~ getting started (1963-1991, speaking, but early in my life.) I have gotten to go to College and have earned an AS in Electronic Instrumentation Technology; a degree in Police Science; and am a certified Locksmith, I am also a Notary Public of South Carolina. All of my training helps me to investigate this matter.

Mr. Weisberg, I would appreciate all and any help you could provide and am looking very much forward to hearing from you. I hope your health improves and that you are comfortable the rest of your life.

With love,

Please send all correspondence to:
